Spring wheat and oats are generally good all of it. The corn in those localities mentioned ed to the list by calling, or sending them in. above as dry, will be very light About Burlington there will be some good corn. Corn looks well about the junction; and in the bottom south of Americus I saw some corn that was really promising. Fourteen miles above Council Grove they will have at least half crops. Upon the whole I think there is but little room for complaint.

I saw two new houses in Americus, and one new one in Council Grove. I saw some stakes along the line of the Neosho Valley Bailroad. Look out for the cars. C. R. R.
